again, I asked Stephanie to take the lead on data. not that you all won't be involved with it. I will be meeting with her tomorrow. We are trying to get it loaded up on the FTP site.
I haven't had a chance to see what Tech Law has been doing so far. We need to give them some more direction i think.
More tomorrow.

I wonder since you developed this product if it might just be better if you went back and footnoted each entry? We are going to need to tell folks where each bit of data came from.

DEP spreadsheets originally provided to K Johnson then to us. Only other source is the data tables released in December and provided to EPA and ATSDR by Kunkle (all Cabot data).

Bob, because of the volume and diversity of all the data, we need you to go back on the spreadsheets you prepared and footnote where you captured particular values. Maybe that already exists on some version?

We really need this info as soon as possible given the arrival of new data that is significantly different than the values you reference.

Call anytime if want talk more about it.
